Parents of Fifth Grade Students,

Your student will be receiving education regarding Growth and Development and HIV/AIDS on March 31<sup>st</sup>, 2023. We understand many parents have questions or concerns about the material being presented and we will be offering parents an opportunity to preview the material. During adolescence, your child will be making many physical and emotional changes. We hope you find the materials helpful and appropriate.

HIV/AIDS prevention education is required yearly in grades 5 through 12. According to state law, no student may be required to participate in AIDS prevention education if the students' parent/guardian attends the district presentation and objects in writing to the student's participation.

The parent preview will be held on January 17th and 26th, starting at 6:00 PM via Zoom at the following link:
